

## Italian Gambling Law: Italians Are Training With The First Full Legal Online Poker Platform

The name is very simple: Scuola di Poker. It's the Italian name for Poker School.

It's the first full legal online poker platform for Italian poker players, developed and realized from the Italian Online Players Sport Association, in collaboration with Capecod and the Italian Poker Association PokerPro.

"Poker game is restricted in Italy, and you cannot also offer online Poker Texas Hold'em", said Stefano Scienza, marketing manager of PokerPro, the first Italian online Poker Association, "but now it is possible to train and play poker, thanks to our School of Poker" ([www.scuoladipoker.it](http://www.scuoladipoker.it)).

If you want to learn how to play online poker, you can try the first Italian poker software, created for the Italian market.

The software has been entirely realized from Capecod ([www.capecod.it](http://www.capecod.it)), the company from Castel Bolognese (RA) famous for the realization of many betting management platforms and that has already introduced the Skill Games to the ENDADA FAIR of Rimini, with the collaboration of the PokerPro Association ([www.PokerPro.it](http://www.PokerPro.it)).

The platform is completely "made in Italy" (from the creation, to the management). The data servers are also located in Italy and the domain is an Italian local domain (.it).

ScuoladiPoker.it supplies to the lovers of the Poker Texas Hold'em the experience of a legal game and the possibility to improve their own technique of game.

ScuoladiPoker.it is the first gaming platform that fully respects the indications of the Italian Monopolies (Aams), that means that as the Italian Monopolies will allow the publication of game platforms through which it will be possible to play Texas Hold'em Poker, the Concessionaires with Italian Licence will be able to offer through the Capecod platform their own online poker room, similar in the modalities of the game offered from Scuoladipoker.it.

The registration to ScuoladiPoker.it is completely free and, beyond allowing to approach the school, it enters itself to make part also of the Italian Online Players Sport Association (ASIGO).

Thanks to ScuoladiPoker.it you can also organize your own poker room, trying the platform with your friends, and test not only your abilities but also the platform.

There are not played money and the jackpot is simply the satisfaction to demonstrate of being the best one.

The modality of participation to the game is very simple: all the players who take part to a poker table have the same amount in chip and play until that only a player has conquered all the chips of all the others.

To regular intervals, the blinds increase, increasing also the pot and rendering the game more intense. The players who exhaust the chip do not have possibility "to recharge" in no way their account.

Each player receives weekly, for free, virtual chips "chip" on his personal account from the system. It isn't possible in any way to acquire other chips.

The winner cannot convert the chips in money.

Mauro Roncolato, President of Capecod, said: "The platform that we've developed for ScuoladiPoker.it is the first step of the Skill Games for the Italian market, we're ready for the new Italian gambling law with our gaming platform".

ASIGO (the Italian online players Association) and the PokerPro Association diffuse and organize not only online poker tours, but also "poker sportivo tours", the Italian way to offer Live Texas Hold'em Poker.
